

## COMPANY PROFILE

**Lake Piso Technologies** is a newly formed Liberian Corporation, whose focus is the architecture of infrastructure, software and marketing for the Liberian ICT market. Lake Piso will provide analysis and assessments for infrastructure and software for public, private and consumer markets. Our clients currently include the Ministry of Justice.

The company principles are:

**George K. Fahnbulleh**, a US software developer with over 20 years' experience, architecting database and software for all sectors of the US market. George's experience includes working with diverse entities such as the US DoD, the United States Information Agency, Boeing Helicopter Company, small to medium medical practices, electronic health record systems developers.

His expertise is the development of relational database architecture, and user interface development as well as business intelligence analysis and reporting. He focuses on Microsoft .Net (dot net) technologies for all platforms including Windows, Web, and Silverlight.

**Omar T. Fahnbulleh**, is a US Telecom Engineer with extensive knowledge and experiences in Information Technology and Telecommunications with emphasis on Data Solutions, Infrastructure Design, IP Telephony and Security. Omar is the South East Channel Sales/Marketing Consultant for Infrastructure, Convergence and Security for Avaya.

Omar has worked with clients such as The District of Columbia Government, Washington Metropolitan Transportation Authority, Reagan National Airport, Dulles Airport Authority, Carroll County Government and Public Schools Systems, CareFirst Blue Cross and Blue Shield Insurance Company, Coppin State University, and the Second largest Community College in the United States, Montgomery College. In addition, he has worked with both State & Federal Government Agencies in the United States, designing and implementing data solutions to entities such as the Department of Labor, and Internal Revenue Service.

**Ballah Kamara**, is the owner of AFTECK NETWORKS, LLC., a computer and network management company dedicated to serving small and mid-size organizations.

With more than 15 years in the ICT area, Ballah brings his in-depth knowledge across a diverse array of operating systems, platforms, topologies, technologies, machines, software

applications, to Lake Piso. He specializes in various solutions like Windows Small Business 2011 / 2008 / 2003 ; Windows 2008R2 / 2003 / 2000 / Windows7 / Windows Vista etc. Microsoft Exchange 2010 / 2007 / 2003 etc. CISCO, 3COM, and TalkSwitch Phone systems.
